

il Mio Fantasma

Written By Jeffrey Scott Thomas

Another day, I drag this heart around
Your memories there, it's the only sound
The empty space still hurts the same
Every memory, I feel again
I fear my empty Heart will never mend
Every second I lose, Every second I lose you again

**I see your Face when I close my eyes
Still here your voice in the dead of the night
I reach through Dark but you're not there
I feel your presence everywhere
My Ghost Still calls**

Another night I swear you're still around
An Empty bed just haunts me now
The empty space still hurts the same
Every memory , I feel again
I fear my empty Heart will never mend
Every second I lose, Every second I lose you again

**I see your Face when I close my eyes
Still here your voice in the dead of the night
I reach through Dark but you're not there
I feel your presence everywhere
My Ghost Still calls**

**My Ghost
My Ghost
My Ghost Sill Calls**
